# Science

Science es una de las revistas científicas más prestigiosas del mundo, publicada por la Asociación Estadounidense para el Avance de la Ciencia (AAAS), con periodicidad semanal. Publica lo mejor en investigación en todas las ciencias, con artículos que constantemente se encuentran entre los más citados del mundo.

Sólo en el último medio siglo, Science publicó por primera vez el genoma humano completo, imágenes nunca antes vistas de la superficie de Marte, los primeros estudios que vinculan el sida con el virus de la inmunodeficiencia humana. El acceso incluye artículos publicados desde 1997 hasta la fecha.

## Efficient circularly polarized OLED

RITUPARNO CHOWDHURY, MARCO D. PREUSS, ET AL.

Current organic light-emitting diode (OLED) technology uses light-emitting molecules in a molecular host. We report green circularly polarized luminescence (CPL) in a chirally ordered supramolecular assembly, with 24% dissymmetry in a triazatruxene (TAT) system. We found that...

### Search Tips

#### Boolean searches

You can use the Boolean Operators AND, OR, and NOT within search fields. By default, an AND relationship is assumed between search terms unless another operator is specified.

#### Searching for authors

To search for multiple authors, separate each author name with either AND or OR. Using AND will search for content that has been co-authored by the authors. Using OR will search for content that has been authored by either of the authors.

#### Searching for phrases

Use a question mark (?) in a search term to represent any one character and use an asterisk (\*) to represent zero or more characters. For example, searching for Europe\* will find results containing Europe and European. Wildcards cannot be used at the start of a search term or when searching for phrases in quotes.

#### DOIs

Search for DOIs using the format 10.1126/science.adi1599 (do not add

The screenshot shows the Science journal website's search results for the term "energy". The page features a dark search bar at the top with the word "energy" entered, a "REFINE" dropdown, and a red "SEARCH" button. Below the search bar, a "FILTERS" button is visible on the left, and "10000 RESULTS FOUND" is displayed in the center. A dropdown menu is open on the right side of the search bar, showing sorting options: "RELEVANCE" (selected), "DATE", "MOST READ", "MOST CITED", and "ALPHABETICALLY". A blue arrow points to the dropdown menu. The search results list three articles:
